

**ORDER DETAILS**

CODE: 85007.200047

Colours: 999 Multiple Color

Size: 0/S

**STEP 1:**

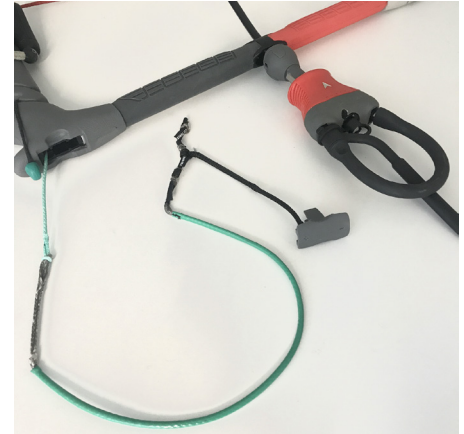

Unwind the flying lines from the Navigator Control Bar.

**NOTE**

NOTE: Pulling the line winder bungee down and locking it beneath the bar will ensure it does not get sucked into the float during installation.

**STEP 2:**

Pull one Bar Width Insert from the bar end until the loop-to-loop connection between the Leader Line and the Green (rear) line is revealed.

**STEP 3:**

Remove the Bar Width Insert by disconnecting the Larks Head attachment on the leader line.

\*Take note of leader line knot setting. The standard setting is on the middle knot.

**STEP 4:**

Remove the leader line by disconnecting the loop-to-loop connection between the leader line and the rear line and pull the rear line free.

**STEP 5:**

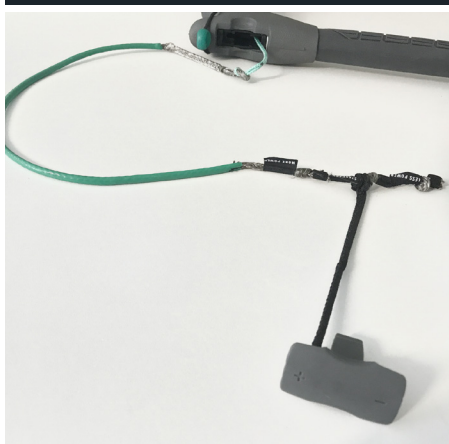

Connect the new leader line to the rear line using a loop-to-loop connection.

Note: Ensure leader line colour matches the colour of the Line Winder Bungee Tabs.

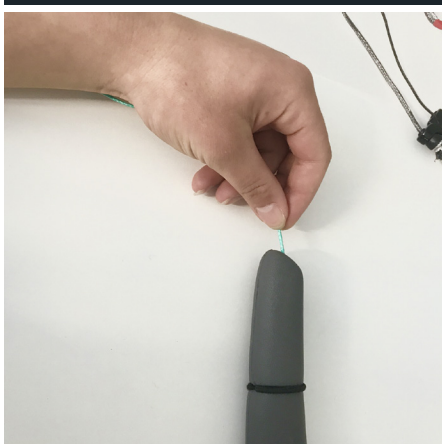

**WARNING: Failure to install this product correctly may result in serious bodily injury or death.** Please contact your local North Retailer for support and ask for a qualified and experienced repair shop to carry out the repair. If you choose to carry out this repair yourself, please read and understand all steps contained in this installation guide before commencing installation. Take all necessary safety precautions. Safety precautions may include taking extreme care when using sharp objects and wearing all personal protective equipment necessary.

**STEP 6:**

Connect the Bar Width Insert to the new leader line on the adjustment knot of your choice using a larks head connection.

**STEP 7:**

Hold the Line Winder Bungee tab and pull on the rear line so the new leader line feeds up through the bar end floater.

**STEP 8:**

Reinstall the Bar Width Insert on your preferred width setting.

**STEP 9:**

Repeat Steps 2-8 for the other side of the bar.
